

Hellbender Laundry Solutions

Hb Laundry #1 is for the Wash

- Add 4 oz Hb1 Laundry #1 *per standard load**
- Add your liquid laundry detergent to same well/dispenser/drawer
- Wash in HOT water

Laundry #2 is for the Rinse

- Add 4 oz of Laundry #2 *per standard load**
- Use fabric softener well/dispenser/or pour in drum during rinse cycle

*A standard load is ~10 lbs of dry laundry. Most machines are between 1 and 6 load, make sure you check before you wash!

Do not use solutions in the same cycle.

Do not combine with ammonia or bleach. Safe for most washable fabrics. Spot test if unsure.d

Laundry #1 – Wash

Ingredients:

Purified water, alkaline salts blend (antimicrobial, chelator, mold inhibitor), organic cosmetic grade surfactants (solubilizer), food grade cationic polymer (antimicrobial, flocculant), enzymatic blend, <1%: essential oil blend, Tetrasodium EDTA (chelator), organic acids (pH balancer), colorant.

- Denatures biotoxins
- Neutralizes odors
- Removes build up & residues

Laundry #2 – Rinse

Ingredients:

Purified water, Acetic acid (sanitizer, mold inhibitor, static reducer), organic cosmetic grade surfactant (solubilizer, dispersal agent), food grade ionic stabilizer (chelator, clarifier), <1%: essential oil blend (sanitizer, mold inhibitor)

- Ensures complete rinse after washing
- Reduces static cling
